- A little bit of history
- Throught the years...
- Plans and perspectives

A little bit of
history

PAMIĘCI DRA JÓZEFA HR. MICHAŁOWSKIEGO
(DOBRCHEÓW, 14 I 1870 – RZYM, 13 X 1956)
FUNDATORA I ZAŁOŻYCIELA
RZYMSKIEJ BIBLIOTEKI
POLSKIEJ AKADEMII UMIEJĘTNOŚCI
OD ROKU 1952 STACJI NAUKOWEJ PAN

PAŹDZIERNIK 2006

17 June 1921 / Count Józef Michałowski donated his book collection to Polish researchers, which was deposited in the Hospice at the Church of St. Stanislaus in via delle Botteghe Oscure 15.

„When accepting Michałowski's gift, the Polish Academy of Arts and Sciences realized that this was only the first step towards the establishment of a Polish scientific center. (...) there's a hope that, thanks to the goodwill of the Polish Government, a few rooms in the Hospice could be obtained for the library and a workshop for Polish scientists sent by the Academy to do research in Rome”.
(Arch. PISK, group 2/99, doc. nr 1-3)

27 September 1927 / Official launch of the Polish Scientific Center and its Library at the Hospice on via delle Botteghe Oscure
(Photos from 1930)

„It is a great joy to see how this Institute, which fought so bravely for its existence, is now living its own life in Rome”.

(E. Strong, *Formazione delle Accademie e Scuole straniere di Roma*, Capitolium 1928, nr 2, s. 109)

18 July 1938 / Relocation to the new site
in Palazzo Doria Pamphilj in Vicolo Doria 2

7 January 1939 / Inauguration

„Mr. Michalowski gave the interior his own style:
whitewashed walls, large Renaissance dark oak tables, with
stacks of books already on the tables. Bookshelves occupied
every available space, even in his own bedchamber”.

(K. A. Jeleński, *Chwile oderwane*, [wybrał i oprac. P. Kłoczowski], Słowo/obraz terytoria, Gdańsk 2010, s. 57).

Through the
years...

... sotto pretesto di oblatione.

Memoria

Chè in oggi senta questione, che ch'è in contrario il sepa nel suo trattato de iudic. cap. 51. n. 11. et 12. e prevaluta però ne Tribunai Ecclesiastici, e laicali la dottrina di s. Tom. nella 2. 2. quest. 10. art. 13. et part. 3. quest. 68. art. 10. = che non sia lecito in verun modo d'battezzare li figliuoli degli Ebrei, non auenti ancora l'uso della ragione. *Inlicitis Carentibus* =

È questa certa più uera, e più comune opinione, tengano fermamente e tutti li Dottori Canonisti, e Teologi, i nomi dei quali sono ampiamente riferiti dal Card. Sertorio nel suo rituale de i sacramenti alla pag. 209. e seq.

Uniforme a tale dottrina sono pure tanto li Concili riprovando simile attentato anche alli medesimi Ebrei, come praticò il 4. Tolodano Concilio nell'anno 633. verso il loto sigebrido, quanto li Sommi. Pontefici, come si può sperare in tutto il Corpo del diritto Canonico nel lib. 5. delle decretali tit. 6. Cap. 9. e lib. 7. titolo primo cap. 1. mo.

Veggasi la Bolla di Martino V. del 1418. confermata da Eugenio IV. e da Carlo V. riportata dal Nauarro al Conf. 434. n. 14. del fine del terzo Volume, e del Brusat. Conf. 11. 231. n. 7. e dal Frattini, discept. 977. n. 14. e 15. La costituzione di Giulio III. dell'anno 1551. nel suo Bollario la XV. la Bolla di Sisto V. del 22. Ottobre 1586. e per uenire a modernità la lettera Enciclica di Benedetto XIV. del 1747. a Monsignor vicegerente di Roma, inserita nel secondo Tomo del suo Bollario.

La stessa provvidenza vediamo ne privilegi concessi alla nazione Ebraica dal Ser. Gran Duca di Toscana Ferdinando primo, al Cap. 26. =

Nel Codice Victoriano vien in oltre decretato che li fanciulli degli Ebrei battezzati contro la volontà dei loro genitori, debbano restituirsi all'istesso.

... un provvedimento con penale pecuniaria, e d'Corpo se però un tale attentato.

... ai concessi agli Ebrei l'anno 1708, combattenti in giugno 1776. ha espres. ... di anni 12. non hanno rice. ... ione.

and publications.

This year will be 146 edition of Conference series.

Plans and perspectives...

This year...

- **New location = new values for roman Centre; we are in advanced search of a new and modern location for future projects, conferences and collaborations.**
- Close cooperation with NAWA and NCN - co-organisation of webinars for Italian and Polish scientists; continuing collaboration with The National Research Council (CNR)
- 70 Polish-Italian Scientific Stories/ 70 avventure italo-polacche – we have already published 40 stories! (all those with Polish-Italian projects are invited to participate)

**PROGRAM
STYPENDIALNY
IM. GEN. ANDERSA**
PROGRAM DLA POLONII

Webinarium dla młodzieży polonijnej
zainteresowanej programem Anders NAWA
– studia I stopnia i jednolite studia magisterskie

10:00 – 20:20 Platforma

Polish Academy of Sciences Scientific Center in Rome
together with
Polish National Agency for Academic Exchange
&
National Science Centre
invite you to a webinar on the programs offer for scientists:

Opening
Agnieszka Stefaniak-Hrycko

HOME ABOUT US ORGANIZATION ACTIVITIES

In memory of Lev Petrovic Pitaevskij
News 26/08/2022

On August 23rd theoretical physicist Lev Petrovič Pitaevskij passed away in Rovereto. A memory by his colleagues of the Cnr National Institute of Optics

Covid, that's why Omicron it's so contagious
Press review 16/08/2022

Researchers from the Institute of Food Sciences (IIS) at the University of Salerno have developed an innovative method to simulate the interaction of the spike protein in the Omicron variant with antibodies produced by our organism. The procedure allows to study the transmissibility of this variant and predict the effect on the immune defenses already developed. The study

This year...

- New location = new values for Rome Centre; we are in advanced search of a new and modern location for future projects, conferences and collaborations
- **Close cooperation with NAWA and NCN - co-organisation of webinars for Italian and Polish scientists; continuing collaboration with The National Research Council (CNR)**
- 70 Polish-Italian Scientific Stories/ 70 avventure italo-polacche – we have already published 40 stories! (all those with Polish-Italian projects are invited to participate)

In the next year...

We will be at the heart of Rome for all individual researchers, institutes and organizations to reconnect Polish & Italian researchers.

We will promote and support projects in all scientific disciplines.

We will offer space for coworking and for meetings, conferences and workshops.

We believe that
together is better, that's
why...

all institutes are welcome to collaborate -
whatever their activity profile is.

We are in Rome to promote and support
scientific activities both Polish and Italian
researchers.

We encourage You to contact us:
